

# MSG 0080 - WAR IN THE POCKET OVA - FINAL SACRIFICE

## OVERVIEW

Cyclops ground team has failed to destroy the RX-78-NT1 Gundam, and the Alex has now confronted the Kampher in the outskirts of the Federation research base. Now the duel begins...

## EFF SCENARIO FORCES

The Federation Commander may only use the RX-78-NT-1 G4 'Alex' piloted by Christina Mackenzie.

The Alex is armed with its gatling cannons (3 shots left) and beam sabre. The suit is not wearing its Chobham armor.

## ZEON SCENARIO FORCES

The Zeon Commander may only use a MS-06FZ Zaku II Kai piloted by Bernie Wiseman.

The Zaku is armed with a Heat Hawk

## SCENARIO SPECIAL RULES

**Damaged Suit** - Any immobilizing damage has been repaired, any other damage sustained on the 'Alex' during its duel with Kampher still has not been repaired for this final battle.

**Kamakarzie Attack** - Bernie knows he must stop the Alex at all costs, the life of AI and everyone else in Side 6 Libot and is prepared die trying. At no point will he fall-back, or try to eject. For this scenario only Bernie gains an additional attack and can make one special Kamakarzie attack. For the turn that the Kamakarzie attack is declared, add +4 to the strength of the heat hawk and his attacks are double. However, his weapon skill counts as 0 for that turn in defending against any attacks.
